What is a Natal Chart?

This Chart is a diagram that shows where the planets, asteroids, sensitive points like the Ascendant (As) or Rising sign, Descendant (D.C), Mid Heaven (M.C), Imun Coeli (I.C) are located in the sky when you were born. A natal chart also contains what is known as Houses and signs and there are 12 of each of these. Houses in Astrology represent areas of life whereas the signs tell you how a planet brings forth its significations. A natal chart also shows aspects. Aspects give you information on how planets/points/asteroids are communicating with each other.
